Eniyavan M

Location/residence: Karur / Chennai, Tamil Nadu, India
E-mail: eniyavan216@gmail.com ∗ Telephone number: +91-9952465467
LinkedIn: linkedin.com/in/eniyavan-m-b49407290 ∗ GitHub: github.com/Eniyavan-Tech
Live Portfolio: eniyavan-portfolio-ca9w.vercel.app

Professional Summary

Full-Stack Software Developer and B.E. Computer Science graduate proficient in architecting high-throughput backend services, RESTful APIs, and automated cloud telemetry systems. Demonstrated experience in structuring normalized 3NF relational databases, reducing p95 API read latency by 45% via Redis caching, and decreasing AWS EC2 compute resource waste by 20% using automated Boto3 pipelines.

Education

Sathyabama Institute of Science and Technology ***Chennai, India***
Bachelor of Engineering in Computer Science and Engineering *2022 – 2026*
Final grade: **7.49 / 10.0** | *Capstone: SEVA – Food Sharing & Surplus Platform*

Cheran Matriculation Higher Secondary School ***Karur, India***
Higher Secondary Certificate (HSC – Class XII) *2021 – 2022*
Final grade: **75.8%** | *Concentration: Computer Science, Mathematics, and Physics*

Technical Projects & Experience

SEVA – Food Sharing & Surplus Redistribution Platform *Nov 2024 – Jan 2025*
Full-Stack Developer & Relational Database Architect *Chennai, India*

- Developed a normalized 3NF relational database schema handling concurrent transactions across donors, NGOs, and volunteers with role-based access control (RBAC).
- Optimized indexing and complex SQL queries, decreasing average database retrieval latency by **30%**.
- Engineered modular RESTful API endpoints and a mobile-responsive interface using Flask, MySQL, and Tailwind CSS.

AWS Cost & Performance Optimisation Engine *Aug 2024 – Oct 2024*
Cloud Telemetry & Backend Engineer *Chennai, India*

- Automated real-time telemetry extraction for compute workloads across distributed EC2 clusters using AWS CloudWatch and Boto3 Python SDK.
- Built predictive regression models and idle compute heuristics to detect underutilized instances, reducing cloud over-provisioning by **20%**.
- Configured automated alerting pipelines and centralized metrics dashboards for instantaneous compute cost and performance tracking.

TaskSync – High-Throughput Task & API Management Service *May 2024 – Jul 2024*
Backend Systems Engineer *Chennai, India*

- Architected an asynchronous RESTful microservice managing multi-tenant task distribution and priority execution queues.
- Integrated a Redis in-memory caching layer for high-frequency API endpoints, slashing p95 read latency by **45%**.
- Containerized application services using Docker and automated CI/CD workflows, achieving over **85%** PyTest suite coverage.

Interactive 3D Engineering Portfolio Platform *Oct 2024 – Nov 2024*
Next.js 14, TypeScript, Tailwind CSS, Spline 3D, Vercel *eniyavan-portfolio-ca9w.vercel.app*

- Architected personal developer showcase with Locomotive Scroll, real-time IST telemetry, and an interactive 3D Spline viewport.
- Deployed on Vercel Edge network with automated CI/CD and SEO OpenGraph metadata: github.com/Eniyavan-Tech/Eniyavan_portfolio.

Technical skills

Programming Languages:	Python, SQL (PostgreSQL, MySQL), JavaScript, TypeScript, HTML5, CSS3
Frameworks & Libraries:	FastAPI, Flask, Next.js, React, Tailwind CSS, PyTest, RESTful API Design
Cloud & DevOps:	AWS (CloudWatch, Boto3 SDK, EC2, S3), Docker, Git, GitHub Actions, Postman
Databases & In-Memory:	PostgreSQL, MySQL, Redis (Caching & Priority Queues), SQLite, 3NF Indexing

Certifications & Technical Accolades

Postman API Fundamentals Student Expert *Postman API Academy | 2024*
Validated proficiency in REST API architecture, collection testing, mock servers, and automated assertions.

NPTEL Certification – Database Management Systems (DBMS) *NPTEL / IIT Madras | 2023*
Mastered relational algebra, 3NF/BCNF database normalization, indexing, and ACID transaction properties.

NPTEL Certification – Introduction to Machine Learning *NPTEL / IIT Kharagpur | 2023*
Hands-on foundation in statistical modeling, supervised regression, and predictive heuristics.
